electromagnetism physics for idiots

June 5th, 2020 - so there you have it the field from a charged

disk all you need is the field from a point and some trig knowledge and you can work it out i could have just given you the final solution but this way you can see where it came from and then if you get it you may be able to work it out from first principles like above''physics4kids thermodynamics amp heat laws of

June 3rd, 2020 - a thermodynamic system is one that interacts and exchanges energy with the area around it the exchange and transfer need to happen in at least two ways at least one way must be the transfer of heat if the thermodynamic system is in equilibrium it can't change its state or status without

interacting with its environment'
